PROJECTS

- Smart Portable ECG Machine (FYP)
- Automated Irrigation System
- Infrared sensor based IR counter.
- 12v DC Power Supply

ABOUT ME

I always want to learn more. Seeking for opportunities so that I could enhance and apply my practical skills Industrial Automation, Instrumentation and Industry 4.0 in the field. I am very excited and passionate to enter in the field.

EDUCATION

• IIEE - NEDUET (2018-22)

i have completed bachelors of Industrial Electronics Engineering by securing 2.9 CGPA from Institute of Industrial Electronics Engineering (IIEE) which is affiliated with NED University in 2022.

• Intermediate (2017)

i have completed intermediate in Pre-Engineering by securing 84% A1 Grade from BISE Mirpur Khas in 2017.

EXPERIENCE

• Internship at Artistic Miliners (June-2022)

It was a 6 weeks Internship in Maintenance Department. During this period I've learned the function and on-ground knowledge of Utilities, Generators, Production, Power House, Gas Turbine, Chillers, RO Plant, VFD's, HMI, SCADA and different PLC's.

• Virtual Internship by Mindstorms Engineering (Dec-2021)

It was a 4 weeks Virtual Internship. Internship has covered both theoretical and mostly practical hands on sessions including Industrial Automation technologies such as PLC, HMI & SCADA as well as IIoT technologies such as IIoT enabled PLCs, Python Programming, Cloud Platforms and AI.
